

Prosser Airport Master Plan Update – Future Use Survey: www.surveymonkey.com/r/ProsserAirport

The Prosser Airport, operated by the Port of Benton (POB), through a grant from the Federal Aviation Administration, is conducting a Master Plan Update. As a current or potential airport user or interested party, you can provide helpful information concerning the current use and needs of the airport, and help identify what future improvements may be needed. Your participation is important in shaping the future of the airport.

The POB had developed a short online survey. The survey can be completed at the following web address: www.surveymonkey.com/r/ProsserAirport. Please answer the questions that are relevant to your usage of the airport. Your input and participation before **March 25, 2016** is appreciated.

If you prefer a paper version please contact:

John Haakenson
Director of Airports and Operations
Port of Benton
3250 Port of Benton Blvd.
Richland, WA 88354
509-375-5287
johnh@portofbenton.com

J-U-B ENGINEERS is the airport engineer. The Langdon Group, a subsidiary of J-U-B, oversees public outreach and involvement. This spring the POB will be hosting a public open house to share the work that is occurring and receive further input from the public. Please share this information with your friends and neighbors.

If you have any questions or concerns, feel free to contact John or Bryant Kuechle with The Langdon Group at 208-739-3048 or bk@langdongroupinc.com.

Thank you and we look forward to working with you on this important project.
