Richland Airport Electrical Replacement Project Construction Scheduled For Week Of July 11 Delayed

RICHLAND, WA - The planned closure [announced previously](#) for the week of July 11 has been delayed one week. Due to the delivery of runway closure barricades and signage, the contractor is not able to start the work until Monday July 18. A revised construction schedule will be distributed detailing the work for the week of July 18. The port apologizes for this inconvenience.
