

BARGE COMPLEX SHORE POWER DEPLOYMENT

QUESTIONS AND ANSWERS

Submit all questions and proposals via the procurement email or in person at 3250 Port of Benton Blvd, Richland, WA 99354. Use the project name for the title of the email.

Updated 2/19/2025

#	Questions	Response
1	Page 5 states that appendices are not included in the page count. Is there a limit to what can be included in an appendix? Specifically, can resumes be include?	Yes, resumes can be included, and the file size can exceed the limits. However, the proposer will be responsible for sending a letter to the port procurement email with instructions on how to retrieve the information from a shared box. The port will not be responsible for any issues related to using an external shared box
2	Page 7 mentions that the Port of Benton consulting contract is attached, but I don't see it in the RFQ or available for download on the Port's website. Could you provide a copy?	The consulting contract will be posted on the port's website by 2/14. This contract is not to be singed, it's only provided as an example of the Ports Terms and Conditions.
3	Does the Port have a preference whether this project is led by an Electrical Engineer or Civil/Structural Engineer?	The project can be led by anyone capable of managing it. A license is only required for the design and other specific requirements necessary to complete the project.
4	Do you want full resumes or just highlights?	Resumes can be included in the appendix but highlights of the project team must be included within the Statement of Qualifications package.
