2579 Stevens Dr, Richland

Rail Modernization & Northwest Intermodal Facility

Hear updates about our planned and completed railroad improvements and track maintenance, including:

- ✓ Update on the rail intermodal facility on Port industrial property in North Richland
- ✓ Tie replacements
- ✓ Rail crossing upgrades
- ✓ Funding and project updates for 2026

These projects support our region's growing agriculture and other industries in getting their goods to market. The improvements also allow train speeds to increase, enhance safety and reduce interruptions for vehicle traffic at crossings.
